

HARIKRISHNAN K

Aspiring DevOps Engineer | Cloud Engineer

+91 9942820053 | harisiva.connect@gmail.com | linkedin.com/in/harikrishnan-k-hs | [My Portfolio](#) | Tiruppur, Tamilnadu

CAREER OBJECTIVE

Aspiring **Cloud & DevOps Engineer** and Computer Science Engineering student with hands-on knowledge of **AWS, Linux, Docker, Git, GitHub, CI/CD, cloud networking, and DevOps practices**. Experienced with **containerized applications, Linux command-line operations, version control, application deployment, and automated software delivery**. Strong understanding of **AWS EC2, S3, IAM, VPC, Docker, Git workflows, networking, and CI/CD pipelines**. Familiar with **Jenkins, Terraform, Kubernetes, and Infrastructure as Code (IAC)**, with a strong interest in building **reliable, scalable, secure, and automated cloud environments**.

EDUCATION

Surya Engineering College, Erode

2027

June 2023 – May

Bachelor of Engineering, Computer Science and Engineering

TECHNICAL SKILLS

- **Programming:** Python, Java, C, JavaScript
- **Cloud:** AWS (EC2, S3, IAM, VPC)
- **DevOps:** Docker, Kubernetes, Jenkins, CI/CD
- **OS & Scripting:** Linux, Bash
- **Version Control:** Git, GitHub
- **Networking:** TCP/IP, DNS, HTTP/HTTPS, Firewalls
- **Infrastructure:** Terraform, Infrastructure as Code (Iac)
- **Databases:** MongoDB, MySQL, NoSQL
- **Tools:** VS Code, GitHub Copilot

WORK EXPERIENCE

Data Analysis Intern

Erode

Oct 2025 – Dec 2025

Dicistroverts. Erode

- Cleaned and pre-processed raw datasets to improve accuracy and consistency for downstream analysis and reporting.
- Performed exploratory data analysis (EDA) to identify trends, patterns, and anomalies in structured data.
- Built interactive dashboards and visual reports using Power BI/Tableau to support data-driven decision-making.
- Documented data workflows and collaborated with the team to streamline recurring reporting processes.

PROJECTS

Smart College System

June 2026

Tech Stack: Flask, MongoDB, Git, HTML, CSS, Role-Based Access Control

- Architected a unified Smart College platform integrating Student, Staff, and Institution portals into a scalable, modular system.
- Implemented secure authentication, registration, and role-based access control (RBAC) with a Flask backend and MongoDB integration.
- Designed a digital assignment management module to automate submission, tracking, and academic workflows, reducing manual overhead.
- Structured the system architecture to support future scaling with AI-driven features, reflecting cloud-ready, modular design principles, with source control managed via Git.

COMPETITIONS & ACHIEVEMENTS

- National Level Project Expo — Presented the Smart College Management System and demonstrated AI-powered student support features.
- College Project Competition — Showcased the Smart College Management System, highlighting dashboard analytics and role-based access control.
